

Objective

To secure a **MERN Stack Developer** job by **June 2025** with a **minimum starting salary of INR 20,000+**, by mastering the MERN stack, building strong projects, preparing for interviews, and applying smartly.

STEP 1: Learning & Technical Preparation (Must-Have Foundations)

1.1 HTML, CSS & JavaScript (Duration: 2 Weeks)

- HTML5, Semantic Tags
- CSS3, Flexbox, Grid, Media Queries
- JavaScript Fundamentals (ES6+)
- DOM Manipulation
- Fetch API, Async/Await

Resources: MDN, FreeCodeCamp, Web Dev Simplified

1.2 React.js (Duration: 3 Weeks)

- Components, Props, State
- Conditional Rendering, Lists, Forms
- React Hooks (useState, useEffect, useRef)
- Routing (React Router v6)
- Context API / Redux Basics
- Custom Hooks (basic level)

Resources: Codevolution, Namaste React, Scrimba React Course

1.3 Node.js + Express.js (Duration: 3 Weeks)

- Core Concepts of Node.js

- Express Routing
- REST API Development
- Middleware, Error Handling
- CRUD Operations

Resources: CodeWithHarry Node Series, MDN Node.js, DevEd

1.4 MongoDB + Mongoose (Duration: 2 Weeks)

- MongoDB Installation and Compass
- Collections, Documents, Schemas
- CRUD using Mongoose
- Mongo Shell / MongoDB Atlas
- Relations using populate()

1.5 Authentication & Security (Duration: 1 Week)

- JWT-based Authentication
- Bcrypt for Password Hashing
- Role-based Access (Admin, User)
- CORS, Helmet, Rate Limiting

1.6 Deployment (Duration: 4 Days)

- Hosting Frontend: Vercel / Netlify
- Hosting Backend: Render / [Cyclic.sh](https://cyclic.sh)
- MongoDB Atlas Deployment
- Git & GitHub Best Practices

📌 Parallel: Learn Git, Postman, ThunderClient for API Testing

STEP 2: Projects (For Resume & Interview)

Swapnil:

Gym Management System (Team Project)

- MERN Stack + Admin Panel + Auth

- Member Management, Trainer Scheduling
- Payment Module, Email Notifications

Status: 80-90% done. Final polish + README + screenshots + deployment pending

Dhru:

1. Learning Platform

- Features: Course Upload, Video Embed, User Registration/Login, Admin Dashboard

2. Payroll Management

- Features: Employee CRUD, Payslip Generation, Leave Tracker

Suggested Enhancements (All Projects):

- JWT Auth + Role-Based Access
- Responsive UI (Tailwind or Bootstrap)
- Clean Dashboard Design (Chart.js, Table Views)
- Deployment Links + GitHub ReadMe

STEP 3: Resume & GitHub Optimization

Resume Sections:

- **Title:** MERN Stack Developer | React | Node | MongoDB
- **Summary:** Final year BCA student, 2 team projects, strong backend/frontend exposure
- **Skills:** HTML, CSS, JS, React, Node, Express, MongoDB, Git
- **Projects:** 2–3 with GitHub + Live Links
- **Internship/Team Projects:** Mention Gym System / Learning Platform / Payroll
- **Certifications:** If done from freeCodeCamp, Coursera, etc.

Tools: Novoresume / Canva

STEP 4: Interview Preparation

4.1 Frontend (React + JS)

- Virtual DOM, Props vs State
- useEffect Lifecycle
- Controlled vs Uncontrolled
- JS Concepts: Closure, Hoisting, Promises, Event Loop

4.2 Backend (Node.js + Express)

- Middleware, REST Principles
- Status Codes
- JWT Auth flow (Login → Token → Authenticated Route)
- Mongoose Methods: findById, save, populate

4.3 HR + Project Explanation

- Project Architecture + Features
- Team Role & Challenges
- "Tell me about yourself" – crisp, confident
- Strengths, Weakness, Career Goals

STEP 5: Job Hunt Strategy (From May 2025 Onward)

Platforms:

- LinkedIn Jobs
- [Naukri.com](https://www.naukri.com)
- Internshala
- Angellist (Wellfound)
- Hirist / CutShort
- Telegram Groups (MERN Stack Jobs / Pune Jobs)

LinkedIn Optimization:

- Banner Image + Good Profile Pic
- Keywords in Headline ("MERN Stack Developer | React | Node")
- Add Projects with GitHub/Live link
- Connect with Pune-based Recruiters

Application Strategy:

- Apply to 10–15 Jobs/Day
- Customize Message + Resume per job
- Keep an Excel Sheet to Track
- Open to Internships that convert to jobs

Final Tips for Dhru & Swapnil:

- Weekly 1 mock interview (with each other or friends)
- Post GitHub contributions every 2-3 days
- Write a blog (Hashnode/Medium) on project or tech topic
- Stay consistent; don't break the chain

 You guys are fresher MERN developers, but with solid projects + learning you can crack Pune startup/agency-level jobs easily.

Timeline Summary:

Month	Goal
April 2025	Complete Learning + Projects Polishing + Resume + GitHub
May 2025	Start Applying + Mock Interviews + Profile Boost
June 2025	Job + Relocate to Pune if confirmed
